

WHY CHOCOLATE IS BETTER THAN WOMEN

Chocolate will always melt in your hands.

You can have chocolate in public.

Chocolate won't ask you if it looks fat in this wrapper.

Dark chocolate is actually good for you.

You can enjoy chocolate while you're watching the game.

Chocolate stays sweet.

You can unwrap chocolate anytime you get hungry.

Enjoying chocolate won't result in little chocolates nine months later.

You can share chocolate with others and no one gets upset.

You can have other treats with chocolate.

Chocolate will never tell you it's not in the mood.
